

## Requirements before installation

The customer declares that the conditions below have been met.

- The surface is flat and level.
- The concrete has the correct size (see '[concrete plan](#)').
- There is 20 cm of space around the garden house.
- There is 20 cm between the garden house and any fence for the overhanging eaves.
- The distance between unloading location and installation location is limited (not more than 30m).

If the customer still wishes installation, he or she must sign the following.

Problems identified:.....

I hereby declare that the surface is not suitable for correct installation, but give my express permission to proceed with installation and hereby declare that:

- I have been informed by the installation team of any possible consequences.
- I am willing to pay extra for the extra materials that were offered as a solution by the installation team.
- Telluria cannot be held responsible for any consequences.
